TATA

TATA INTERNATIONAL

AUTUMN-WINTER 2015/16

Utilizing India's abundant raw materials Tata International produces almost 5 millions SFT of high quality goat, sheep and bovine leathers, designed and developed to meet the exacting standards of The World's leading brands.

With a dedicated team focused on the the delivery of the highest standards of quality and service Tata International is ready to support all your leather sourcing requirements.

Delivery of quality products and service, is however, only part of what Tata International brings to your supply chain

As a member of the TATA Group of companies, we take pride in the fact that we have addressed many of the concerns associated with sourcing from India, through an adherence to the strong traditions of corporate social responsibility, ethical business practices and community building that is central to the philosophy of all Tata Group companies.

Having received the Rajiv Gandhi National Quality Award and Rajiv Gandhi award for Environmental Protection and an LWG gold rating in addition to our ISO 9001, ISO 14001 and ECOMARK accreditations we are an industry leader in environmental management.

Tata International India's leading supplier of world class fashion and performance leathers to the footwear, apparel, accessories and automotive industries.

AW 15/16 Trend Direction

WILD NATURE

WINTER RELAX

LIFE IS LUX

STAR CHIC

"The beauty is contained in the thickness of the leather"

We dare, we experience, we personalize and exalt the aesthetic.
In the winter of 2015-16 will be the nature the absolute protagonist, in various forms, we will find the inspiration that allow us to give new life to materials.
The four trends talk about climatic conditions, relaxation, luxury and beauty of outer space.
Look for trends is an adventure in this chaotic world where we embrace the changes in a global vision of humanity.
Today, where people need everything and anything, we try to give an handmade product but technical effect.
The craftsmanship is life and tells the story of our lives.
The hands and the aspects will change according to the trend addressed.
The effects will be: from vegetal to glossy metallic, wet and worn, dry and soft, that evoke felt and wool blankets.
The three-dimensionality of the materials will be enhanced by natural aspects and contrasts of tone-on-tone or two-tone with touches of pearls and metals.
